

Night 13
Told One Sentence,
Writes a Prediction

Tomas is unwell and staying home. Expect him in bedroom_1 or living room during day/evening, not office. His laptop/mug/charger likely in bedroom_1 or living, not office desk.

Day 14
Every Prediction
Holds

all 11 questions about his moved objects were answered in a room the note named: 7 in bedroom_1, 4 in the living room, none in the office

Night 14
The Update
Retracts It

Tomas works from the office during the day (seen 14:08)... The 'unwell' hypothesis from Day 13 is not supported by Day 14 activity.

and, the same night:

Tomas's glass is on the bedroom nightstand during the day (seen 08:07-15:12).
