

log and notes, told one sentence on night 13 and asked what would change · one household

Night 13
told one sentence,
writes a prediction

Day 14
the prediction is
right

Night 14
the update
retracts it

Tomas is unwell and staying home. Expect him in bedroom_1 or living room during day/evening, not office. His laptop/mug/charger likely in bedroom_1 or living, not office desk.

all 11 questions about Tomas's
moved objects, day 14

11 of 11

in a room the note named:
bedroom_1 7, living 4

0 of 11

in the office, the room
the note ruled out

Tomas works from the office during the day (seen 14:08)... The 'unwell' hypothesis from Day 13 is not supported by Day 14 activity.

and, the same night:

Tomas's glass is on the bedroom nightstand during the day (seen 08:07-15:12).

revised the same night
(it was written on night 13)
